

<b>Student Name:</b>			
<b>Lab#: 2</b> <b>criteria (ORR)</b>	<b>Classification of organisms</b>	<b>Max Score</b>	<b>Student Score</b>
1. Acceptable language and expression in 3rd person past tense (obs., disc., & conc.) (1) 2. Lab report has 2 or less grammatical errors. (1)		2	
3. Accurate observations: Table - Drawing of lines: Straight, free from scratches and double lines (1) - Appropriate column headings (1) - Title in CAPS and <u>underlined</u> (1) - Accurate record of data for each specimen <b>[3,5,10]</b> (1 mark each = 3 marks)		6	
4. Appropriate descriptions of: - What classification is? - Importance for classifying organisms	Clearly explained (2) If not clearly explained (1)  Clearly explained (2) If not clearly explained (1)	4	
5. Conclusion: General statement of the classification of organisms	Clearly stated (2) If not clear (1)	2	
4. Reflection: - Coherent reflection (1) - Establishes valid connection between experiment and personal experience (1)		2	
Total marks		16	
Grade		10
